beijing

Full twelve-station hourly panel. Supplied NA measurements remain missing cells, distinct from absent records.

Completed evidence · 1 sources · 39 retained records

15 evidence-qualified finding(s) across 1 supplied source(s). Required stages completed over eligible records; behavioral search scope is disclosed separately.

Actions to investigate

Window effects meet configured investigation settings

Review reference support, dispersion, seasonality, and entity composition before interpreting the change. Review the declarations and bounded witnesses.

investigation_candidate · t7 · PM2.5

Window effects meet configured investigation settings

Review reference support, dispersion, seasonality, and entity composition before interpreting the change. Review the declarations and bounded witnesses.

investigation_candidate · t23 · DEWP

Contiguous equal-value runs merit investigation

Configured candidate threshold met. Legitimate plateaus, zeros, and operating regimes remain plausible. Review the declarations and bounded witnesses.

investigation_candidate · t29 · RAIN

Window effects meet configured investigation settings

Review reference support, dispersion, seasonality, and entity composition before interpreting the change. Review the declarations and bounded witnesses.

investigation_candidate · t31 · WSPM

Contiguous equal-value runs merit investigation

Configured candidate threshold met. Legitimate plateaus, zeros, and operating regimes remain plausible. Review the declarations and bounded witnesses.

investigation_candidate · t33 · WSPM

Interpretation boundary

- No composite score or universal readiness verdict.
- Investigation defaults are not validated defect criteria.
- Supplied evidence does not prove what a production pipeline consumed.

Declarations

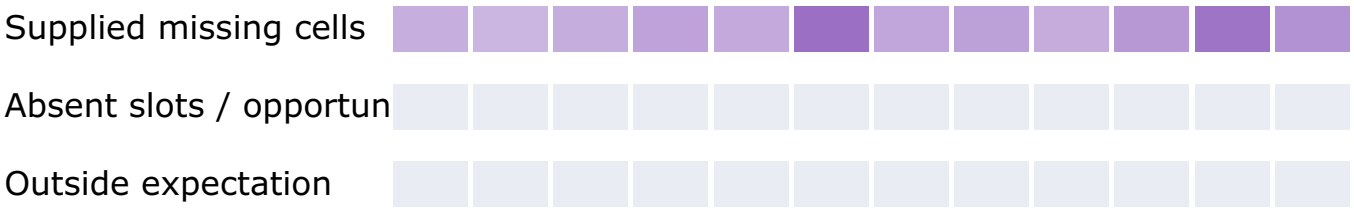
RETAINED EVIDENCE · 4 / 8

Continuity and history

Absent observations, supplied missing values and outside-expectation periods have different meanings. Event absence alone does not prove an outage.



beijing · missing values and absent slots remain separate

beijing · expected population

Evidence / source	Measurement or rule	Retained result

Behavioral investigation

Thresholds and support settings are configurable investigation defaults. Reference support, sparse windows, zero dispersion, phase exclusions and population mix qualify interpretation.

RETAINED EVIDENCE · 6 / 8

Availability and outcome maturity

Undeclared availability remains unknown. Historical agreement concerns supplied coverage; it does not establish what a pipeline consumed.

Evidence / source	Measurement or rule	Retained result
t6 beijing	features	["PM2.5","PM10","TEMP","PRES","DEWP","RAIN","WSPM","wd"]
t6 beijing	meaning	Undeclared availability remains unknown; no timestamp inheritance.

2 of 2 metric rows shown. Presentation limits do not change analytical coverage.

RETAINED EVIDENCE · 7 / 8

Chronological evaluation

No retained evidence applies to this topic in the declared scope.

0 of 0 metric rows shown. Presentation limits do not change analytical coverage.

20 of 34 metric rows shown. 14 presentation rows omitted; retained JSON preserves their evidence. Presentation limits do not change analytical coverage.

Decoded-batch controls bound accepted batches and application retention. Native pages, dictionaries and conversion buffers can allocate before checks. Estimates and workload limits are provisional engineering controls. RSS monitoring can overshoot between samples.

Analytical scope left unsearched, retained-detail omissions, and presentation omissions are separate. No independent-row significance testing, model fitting, split generation, automatic repair or universal temporal score is performed.
